## ABOUT AEF

The Arkansas Environmental Federation (AEF) represents Arkansas manufacturers, lawyers, lobbyists, consultants, power companies, municipalities, construction companies, hospitals and colleges at the state legislative level with one goal in mind: sensible regulation that simultaneously promotes economic growth and environmental protection.

Through a variety of educational and networking opportunities, AEF strives to keep its members informed and involved in the initiatives and legislation that affects their industry and the impacts it may have on Arkansas' economic development.

Join today and gain access to a network of over 200 companies around the state with whom you can reach out to for input, brain storming, and discussion. For more information on membership with AEF, please email Ava Roberts at [aroberts@environmentark.org](mailto:aroberts@environmentark.org)
