Experience

Ms. Conklin primarily represents corporate defendants in the areas of products liability, drug and medical device, and class action defense as part of Mitchell Williams' trial team. She serves in a multitude of roles throughout the discovery, case workup, and trial phases.

Ms. Conklin's practice focuses on products liability, drug and medical device, and class action defense. She has served local and national clients in all phases of the litigation process, including discovery, expert workup, motion practice, trial preparation, trial, and appellate practice. She has coordinated large-scale discovery projects, and has significant experience in handling e-discovery and its various challenges.

Ms. Conklin is a member of the Mitchell Williams trial team where her experience includes representation of major pharmaceutical companies in multi-district litigation and other state and federal court trials throughout the United States. Ms. Conklin regularly leads team projects requiring coordination of multiple attorneys across several different law firms.

Prior to joining Mitchell Williams, Ms. Conklin practiced complex commercial litigation and health care law for several years in Houston, Texas.

Involvement
