Case Study/Observations, Thoughts and Suggestions from a Seasoned Inspector: Brent Walter (Arkansas Department of Environmental Quality) Arkansas Water Works & Water Environment Association Conference Presentation

Arkansas Environmental, Energy, and Water Law Blog

05/20/2016

Brent Walker (Arkansas Department of Environmental Quality Office of Water Quality) undertook a presentation at the Arkansas Water Works & Water Environment Association annual conference titled *Case Study: Observations, Thoughts and Suggestions from a Seasoned Inspector ("Presentation")*.

Mr. Walker undertook an extensive review of a variety of issues associated with Clean Water Act National Pollution Discharge Elimination System Permit inspections and related issues.

The *Presentation* included recommendations such as:

- Reading Your Permit
- Cover Page
- Monitoring Requirements and Limits
- Other Conditions
- Standard Conditions
- Definitions
- Statement of Basis
- Percent Removal
- Formula
- Example
- Influent Sampling
- Representative Sampling
- Intermittent Discharges
- Record Contents
- Example Flow Records
- Example Flow Measurement
- Flow Calibration Checks

- Flow Measurement – WEIRS
- Parshall Flumes
- Remedial Discharge Monitoring Report
- Exceeding Permit Limits
