The Arkansas Forestry Association (“AFA”) announced it is holding a workshop titled:

*Technology in the Forest Workshop (“Workshop”)*

The workshop will be held June 14-15 in Monticello, Arkansas.

The workshop is described as an:

. . . interactive workshop to learn about technological advances in the field of forestry. This 2-day educational workshop will include presentations and in-the-field site visits. Participants will also meet and learn from natural resource professionals and members of the forest industry who are in the field conducting this work on a regular basis.

Session topics include:

- Surveying
- GIS/GPS
- Drone technology
- Useful phone app technology
- Timber Harvesting Equipment
- Technological advances in the field of forestry

Registration is stated to be \$40 per person for each session, which includes lunches, field transportation during the workshop, materials and resources.

Those interested should contact Rob Beadel at 401-374-2441 or [rbeadel@arkforests.org](mailto:rbeadel@arkforests.org).
