“Prior to the fiscal session, a number of matters that warranted immediate action by the legislature were brought to my attention, including issues such as highway funding and pharmacy benefit manager oversight legislation,” said Governor Hutchinson. “I made a commitment then to hold a special session following the Fiscal Session to address these items, as well as other issues deemed unique in circumstance, if legislators could reach a two-thirds consensus in both chambers. The items on the call reflect that commitment, and I look forward to working with the legislature to address these issues in a quick and efficient manner over the next three days.”

Call items are as follows:

1. To provide for the payment of expenses and per diem of the House of Representatives and the Senate for this Extraordinary Session.
2. To make technical corrections to Ark. Code Ann. § 5-71-101 for the purpose of aligning state law with federal law to avoid federal highway penalties, by adding changes to the definitions of alcoholic beverages, motor vehicle, and open alcoholic beverage container, also by making changes to Ark.
