

# 2017 SPEAKER SERIES

## Investing in Water Supply Protection in NWA

*It's good for business, agriculture, recreation, nature, and you!*

**November 30**

**Thursday**

**11:30 am - 1 pm**

*Free Lunch Provided*

*with RSVP*

## TOPIC:

Integrating and Applying Low Impact Development Principles in Drainage Criteria Manuals

When drainage planning is incorporated into the initial stages of an urban design, the benefits that result from a well-planned storm drainage system are numerous. This presentation will highlight Low Impact Development and how it reflects a significant shift in the approach to land development and stormwater management, emphasizing an integrated approach to stormwater management and drainage design, including stormwater quantity and quality issues, and the use of LID and sustainable site planning techniques.

## PRESENTED BY:

Nathan Becknell, PE, PTOE  
City Engineer for City of Rogers, AR
