The Beaver Watershed Alliance (“BWA”) has scheduled its next presentation as part of its Beaver Watershed Alliance quarterly Speaker Series.

The presentation is titled:

The Hydrogeology of the Beaver Lake Watershed (“Presentation”)

The *Presentation* will be held on December 5th in Fayetteville, Arkansas at the Washington County Extension Office Auditorium.

Guest speakers will include:

- Darcia Routh – Arkansas Department of Health
- Dr. Phillip Hays – United States Geological Survey

The *Presentation* will focus on the groundwater hydrogeology of the Ozark mountains in general and the Beaver Lake Watershed specifically. This will include a discussion of both the deep water aquifers underlying the Boston Mountains – Ozark Highlands Region and the shallow groundwater systems more immediately affected by human activity.

Attendees who are expected to benefit from the *Presentation* include:

- engineering professionals,
- environmental professionals,
- land managers,
- elected officials,
- decision-makers, and
- landowners.

The *Presentation* is free and lunch will be provided. The BWA ask that attendees RSVP by contacting the Alliance at (479) 750-8007 or info@beaverwatershedalliance.org.
