David Triplett has been promoted to Environmental Director for Entergy's Power Generation business unit.

Mr. Triplett currently serves as the Arkansas Environmental Support Manager for Entergy.

Mr. Triplett's new position is based out of The Woodlands, TX office.

The Environmental Director's responsibilities include management of a team of approximately 35 environmental professionals. The personnel are located in the four-state service area which includes Arkansas, Louisiana, Mississippi, and Texas.

Facilities in this business unit include hydroelectric, coal, and natural gas generating plants. The plants have a combined capacity of approximately 19,000 MW.

Mr. Triplett's prior positions include:

- GBMc & Associates – Senior Engineer and Air Services Manager
- Arkansas Department of Environmental Quality Air Division – Engineer Supervisor and Permit Engineer

Mr. Triplett has also served as Co-Chair of the Arkansas Environmental Federation Air Committee since 2014.
