Abatement Issues Associated with Historic Properties: Justin Dixon (Snyder Environmental) February 13th Little Rock, Arkansas Quapaw Quarter Association Presentation (Reminder)

02/10/2020

Mr. Justin Dixon of Snyder Environmental will undertake a presentation at the Quapaw Quarter Association ("QQA") titled:

Abatement Issues Associated with Historic Properties ("Presentation")

The Presentation is subtitled:

Or, Removing Asbestos and Other Hazardous Materials from Historic Properties

The QQA states that Snyder Environmental has been a leader in environmental remediation services since 2001 in addressing the remediation of environmental issues, which include toxic abatement and removal.

The company is stated to specialize in:

- asbestos abatement;
- mold remediation;
- dust control; and
- lead paint removal.

The QQA Presentation will take place on February 13th at 5:30 p.m. in the Mixing room at the Old Pain Factory in East Village in Little Rock, Arkansas.

The event is stated to be free and open to the public but requires an RSVP.

A copy of the flyer can be downloaded [here](#).
