The Institute of Scrap Recycling Industries (“ISRI”) issued its 2019 Recycling Industry Yearbook (“Yearbook”).

The 2019 edition is the eighth year that ISRI has published a Yearbook on this topic.

The Yearbook provides a single source of data and information on various aspects of the scrap and recycling industry. Various major scrap commodities are addressed such as:

- Iron and Steel
- Nonferrous Metal
- Recovered Paper and Fiber
- Plastics
- Electronics
- Tires and rubber
- Glass
- Textiles

Further, the Yearbook describes how recyclable material is:

- Transported
- Processed
- Traded
- Used in manufacturing
- Providing environmental benefits

Examples of key information provided by the Yearbook include:

- Safety and compliance training
- Networking and education
- Market research and reporting
- Regulatory and legal information
- Industry-specific publications
- Industry representation
- Advocacy on the state, national, and international level

Statistical appendices include:

- Historical Production, Recovery, and Consumption Data

- Global Scrap Exports by Commodity
- Global Flows by Country and Year

A link to the Yearbook can be found [here](#).
