This is the first article in a series of summaries of Insurance legislation from the 93rd Arkansas General Assembly.

The 93rd Arkansas General Assembly convened on January 11, 2021 and entered into an extended recess on April 27, 2021. The resolution authorizing the extended recess provides for the legislature to reconvene for the following purposes:

- Considering vetoes;
- Correcting errors and oversights;
- Completing work on congressional redistricting; and
- Considering legislation related to the COVID-19 public health emergency and distribution of COVID-19 relief funds.

The legislature expects to return in the fall to complete congressional redistricting. At least two special sessions are also expected to be called later this year. One special session is expected to consider tax cuts. A second special session is expected to consider changes to the state public employee and teacher health plans.

Acts not carrying an emergency clause or a specified effective date generally take effect on the 91st day following the date of *sine die* adjournment. According to the resolution permitting the extended recess, acts not carrying an emergency clause will take effect on the 91st day following the date of recess unless the legislature reconvenes before the expiration of 90 days. The Attorney General has opined that such bills will become effective on July 28, 2021. If the General Assembly reconvenes before the expiration of the 90 days, however, the effective date of bills passed without an emergency clause will be extended by the number of days the legislature is in session.
