09/16/2021

The September 8th edition of the publication Recycling Today noted that the JW Aluminum (“JW”) Russellville, Arkansas, facility has obtained GreenCircle Certification.

JW is an aluminum rolled products company.

The company states that the markets it serves includes:

- Building products
- HVAC
- Transportation

GreenCircle Certification is described by JW as a multi-attribute environmental third-party certification. Its labels are stated to provide environmental data at-a-glance addressing considerations such as:

- Recycled content composition
- Carbon footprint
- Energy reduction
- Waste diversion

The GreenCircle Certification period for JW is September 1, 2021 – August 31, 2024.

The GreenCircle Certified Environmental Facts for the JW Russellville facility addresses two categories.

First, is Product Specific which lists:

Total Recycled Content	49%
Pre-Consumer	28%
Post-Consumer	21%
Recyclable Materials	100%

Second is Manufacturing Specific:

Carbon Footprint Reduction	12%
Energy Usage Reduction	12%
Total MJ Reduced	18,353,853

Waste Diversion from Landfill	29%
Total lbs Diverted from Landfill	1,597,724
ISO 9001 Certified
