Harbor Environmental and Safety (“Harbor”) has scheduled virtual training addressing Clean Water Act stormwater and spill prevention control and countermeasure requirements.

The virtual training will be on February 1st and 2nd.

Harbor states the training sessions will provide information addressing:

- How to protect our water supply
- How to reduce pollution
- How to be better prepared for regulatory audits and inspections
- Assistance in preventing unnecessary and unwanted regulatory fines

Information regarding registration and related information can be found [here](#).
