Environmental Consulting Design Services/Site Assessments and Remedial Investigation/Actions: Arkansas Department of Energy & Environment - Division of Environmental Quality Request for Qualifications

08/11/2023

The Arkansas Department of Energy & Environment – Division of Environmental Quality (“DEQ”) issued a Request for Qualifications (“RFQ”) for:

Environmental Consulting Design Services for Site Assessments and Remedial Investigation/Actions

See 930-RFQ-2401.

The RFQ’s Notice of Intent states it is soliciting responses from qualified environmental consultants to provide the following:

- Professional site assessments
- Remedial investigations
- Remedial action plans
- Design services

Such services would be provided at potentially environmentally contaminated sites throughout the State of Arkansas.

Tasks described included:

- Site characterization
- Remedial design engineering
- Oversight of remediation activities at potentially contaminated sites
- Implementation of actions required for environmental emergency responses

The services will be provided pursuant to the following DEQ programs:

- State priority list
- Superfund operation and maintenance

- Arkansas Brownfield program
- CERCLA site assessment
- Post-closure trust fund
- Emergency response

The RFQ Table of Contents addresses:

1. Introduction
2. Scope of Services Requested
3. Proposed Schedule of Events
4. Written Qualifications Submission Guidelines
5. Evaluation of responses and Selection Criteria
6. Selection of Consultants for Interviews
7. Oral Presentation and Interview
8. Selection of Consultant for Negotiations

The submittal deadline for a response to the RFQ is August 14th.

A copy of the RFQ can be downloaded [here](#).
