Jimmy Rogers has joined as Senior Environmental Scientist and Project Manager for the Little Rock Office of Engineering, Compliance, & Construction, Inc. ("ECCI").

Mr. Rogers previously served as an Environmental Scientist at FTN Associates from 2005 until April 2024.

His areas of expertise include:

- Clean Water Act Section 404.
- Wetlands and Waters of the United States delineation.
- Nationwide and individual Section 404 Permits.
- National Environmental Policy Act.
- Endangered Species Act.
- Site evaluations.
- Effects determinations.
- Biological assessments.
- Phase I Environmental Assessments.

Mr. Rogers hold a B.S. of Environmental Science with an emphasis in Biology from the University of Central Arkansas.

ECCI describes itself as an environmental science and engineering firm with twenty-one engineers and environmental scientists.
