The Arkansas Water Resources Center (“AWRC”) announced an upcoming water webinar titled:

Using PCSWMM Modeling in the City of Rogers to Understand Current and Future Storm Water Conditions (“Webinar”).

The Webinar will be held on March 20, from noon- 1 pm (Central Time)

The Speaker is Mr. Garrett Lampson, PE CFM.

Mr. Lampson is a Stormwater and Stream Quarter Engineer for the City of Rogers, Arkansas.

AWRC notes that the city of Rogers is:

...using their model to understand where flooding is occurring in the City, locate capacity issues within the system, identify regional detention opportunities, and apply for federal grants.

Mr. Lampson will also discuss how the model has helped address communication barriers and “garner support for additional actions across the City of Rogers”
