
DEADLINE EXTENDED

Request for Pre-Proposals!

104(b) Grant Program

Request for Pre-Proposals in Water Research

The Arkansas Water Resources Center invites pre-proposals for research projects that address critical water needs in Arkansas. This funding opportunity comes as part of the US Geological Survey 104(b) Grant Program.

Eligibility: Any faculty member or affiliate at a college or university in Arkansas is eligible to apply. Students with a faculty advisor are also eligible to apply for a smaller student grant that supplements current research efforts. Federal employees are NOT eligible as a principal investigator, but can collaborate with faculty as a co-investigator.

Funding: Funding is contingent upon USGS funds being provided. We anticipate funding faculty researchers up to \$35,000 and student researchers up to \$10,000.

Deadline: The submission [deadline has been extended](#) to **January 22, 2024** by 5:00 pm.

[Click here to view the full Request for Pre-Proposals.](#) Visit the AWRC's 104(b) webpage to see past projects. If you have any questions, please contact Erin Grantz at egrantz@uark.edu.
