

Introduction to the Fall 2022 Regulatory Plan

Executive Order 12866, issued in 1993, requires the annual production of a Unified Regulatory Agenda and Regulatory Plan. It does so in order to promote transparency – or in the words of the Executive Order itself, “to have an effective regulatory program, to provide for coordination of regulations, to maximize consultation and the resolution of potential conflicts at an early stage, to involve the public and its State, local, and tribal officials in regulatory planning, and to ensure that new or revised regulations promote the President's priorities and the principles set forth in this Executive order.” The requirements of Executive Order 12866 were reaffirmed in Executive Order 13563, issued in 2011.

We are now providing the Fall 2022 Regulatory Plan. The regulatory plans and agendas submitted by agencies and included here offer a window into how the Administration plans to continue delivering on the President's agenda to advance economic prosperity and equity, tackle the climate crisis, advance public health, and much more to improve the lives of the American people. Agencies will also be continuing their work to implement landmark new legislation passed in 2022, including the implementation of the PACT Act, Pub. L. 117–168); the Inflation Reduction Act, (Pub. L. 117–169); and the CHIPS and Science Act, (Pub. L. 117–167); as well as ongoing efforts to implement the Infrastructure Investment and Jobs Act (Bipartisan Infrastructure Law), Pub. L. 117–58.
