

**NWALT PARTNERS WITH
OZARK NATURAL SCIENCE CENTER
ON PROGRAMMING AT
KESSLER MOUNTAIN CLASSROOM**

Dear Walter,

As an NWALT supporter, we wanted you to be the first to know! Northwest Arkansas Land Trust and Ozark Natural Science Center are pleased to announce a new partnership to enhance educational opportunities at the Kessler Mountain Nature Center and Outdoor Classroom.

Through this partnership, ONSC will take the lead on educational programming, allowing NWALT to focus on its core mission of land conservation.

This partnership aligns with the missions of both organizations to foster a deeper appreciation and stewardship of the natural environment in Northwest Arkansas.

“After providing 10 years of educational programs at Kessler Mountain, NWALT is realigning its efforts to better concentrate on its mission of preserving and protecting land.” said Grady Spann, Executive Director of NWALT.

“We’re pleased that ONSC will take over the educational component and we are providing assistance to make the transition seamless.”

This collaboration is a significant step forward in providing high-quality environmental education to the residents of Northwest Arkansas. By combining the strengths of both organizations, Kessler Mountain Nature Center and Outdoor Classroom will remain a vibrant and engaging resource for the community.
