

## Reminder: Preservation Conversations February 13, 2020

### Abatement Issues Associated with Historic Properties (Or, Removing Asbestos and Other Hazardous Materials From Historic Properties)

by Justin Dixon with Snyder Environmental

Join the QQA as we discuss dealing with removal of asbestos or other hazardous materials from a historic property with Justin Dixon of [Snyder Environmental](#).

As a leader in environmental remediation services since 2001, Snyder Environmental provides safe and compliant remediation of environmental issues, including toxic abatement and removal.

Headquartered in North Little Rock, Arkansas, with offices in Oklahoma, Texas, and Northwest Arkansas, Snyder Environmental specializes in asbestos abatement, mold remediation, dust control, and lead paint removal throughout Arkansas, Louisiana, Mississippi, Missouri, Oklahoma, Tennessee and Texas.

#### Event Info:
