

All of the Details

Who should attend?

Plant managers, maintenance and environmental managers, state and local regulatory agency professionals, and local government officials will take valuable knowledge with them to apply to their professional responsibilities and also be able to help others in their communities better understand how state and federal air pollution programs work and how they are enforced.

AEF has teamed with the Arkansas Department of Environmental Quality (ADEQ) to provide a program designed to help regulated facilities, government officials, and all environmental professionals understand current permitting and compliance requirements and what changes will be encountered in the near future. Experienced environmental attorneys and consultants will provide information concerning EPA rules and how to be successful in these challenging times. As usual, ADEQ air enforcement and air permit managers will provide insight into what is required to demonstrate on-going compliance with the Clean Air Act and what it takes to successfully obtain timely approvals for facility modifications.

Attire

Dress is business casual. The temperature in the meeting room may fluctuate, so bring a jacket if you think you will need it.

Location

Holiday Inn – Airport: 3201 Bankhead Drive • Little Rock, AR 72206

Hotel

Special Thanks to

ESC, Trinity Consultants, Alliance Source Testing, and ECCCI

About The AEF

The Arkansas Environmental Federation is a private, non-profit environmental education association that formed in 1967. The AEF works closely with industry, as well as state and federal environmental, safety and health regulators. The AEF's efforts focus on educating environmental, health, and safety professionals through educational workshops. We advocate economic growth with environmental concern through practical, scientifically based regulations. For membership information or to register on-line, visit the AEF's website at www.environmentark.org, send an email to mbrookins@environmentark.org, or call 501-374-0263.
